OUR SUPERINTENDENT SPEAKS

This year's message is more of a concern than a message. It is a concern that, I am sure, is shared by all of us who care for you, the students.

My concern is that so many of today's students in their struggle to be individuals and to do their own thing have allowed themselves to become exactly what they resent.

Almost all of you are being led around by the nose without realizing it. You are greatly influenced in what you do or don't do, what you like or dislike, and what you wear or don't wear. The reason you do not realize that you are being led around by the nose is the way in which it is done. It is done in such a way that you think it is really you doing your thing, when in truth you are really being told what, when and how. If it were your parents or the adults in your life doing this, you would resent it very much, but yet you will allow outsiders to set your way of life and never realize it.

Most of this does not really bother me. The fads, fashions, clothes, music, etc., you will outgrow. My concern is the other things that you will not be able to outgrow--the ones that damage your mind and body like smoking, drinking, and drugs.

My last concern is that you are being influenced in the classroom in the same way. Without knowing it, you are allowing yourself and your group to lower your standards.

This school is here to prepare you for your future. With the standards that you are allowing to be set for you, I fear that many of you will not have the future you could have had.

To the Seniors I want to wish the best. You will be missed. You are a great bunch.

Congratulations to the Class of 1977!

What else can you do?

- enjoy electric power and speed
- give your homework the look of printing with carbon film ribbon.
- correct mistakes without erasing. The correction cartridge does it.
- type in your choice of colors for distinctive letters.
- make all your business homework look like it was done on a modern office machine.

An exquisite typewriter . . . and the *Corona-matic Cartridge Ribbon System* makes the big difference. Change the cartridge, and you change the typewriter to match the job. *Carbon Film* for the print-like look. *Fabric Ribbon* for economy. *Correction Cartridge* for eraser-free corrections. *Color Cartridges* in red, blue, green and brown to mix and

match with color stationery.

Businesslike homework? It's yours—and all you do is choose and change cartridges . . . in seconds. Remarkable! Come in and do it yourself. No instruction required.
